Re: CG Docket Nos. 03-123 and 10-51

Dear Chairman Genachowski and Commissioners Copps, McDowell, Clyburn, and Baker,

Video Relay Service allows deaf individuals to communicate by phone in American Sign Language. This life-altering broadband service is a vital link that connects deaf people to the hearing community.

Ensuring that deaf individuals have access to VRS and encouraging improvements in VRS should be a high priority for you as Chairman and Commissioners of the Federal Communications Commission. The Americans with Disabilities Act requires the FCC to make available to all deaf individuals nationwide "functionally equivalent" communications.

You will soon determine the future of VRS. When you set the VRS rate, you will determine whether America makes progress toward the statutory goals of functional equivalence, nationwide access, and inclusion – or force deaf users to revert to TTY communications. And, you will determine whether VRS fulfills its potential to drive broadband adoption by the deaf, even in the face of disproportionate poverty, disenfranchisement, and isolation.

I was deeply disturbed to see the Commission's recent Public Notice on VRS rates. These proposals will put VRS providers out of business and mean an end to VRS.

You should be increasing the availability and use of VRS, not cutting back. You should adopt a rate that encourages continuing improvements in VRS technology. Recent developments in VRS are a good example of how the service can be improved, such as enhanced 911 services, 10-digit numbering, a larger and better-trained pool of interpreters, and better videophones with an array of enhanced features. Monthly payments for broadband are a big expense for many deaf people, and instead of trying to cut back on VRS, you should be exploring ways to make VRS over broadband more affordable to deaf individuals.

Progress toward functional equivalence will be destroyed if the FCC does not encourage VRS providers to improve VRS and make it more widely available. VRS is a recent and dramatic advancement that benefits those who are deaf, but so much more can be done. It would be tragic if the FCC were to destroy this broadband service that is so vital to the deaf.

I urge you to establish a fair and predictable rate for VRS that will encourage VRS providers to invest in improving VRS and reaching more deaf individuals. The law requires it and it is the right thing to do.

Sincerely,

Signature
